PILOT HANDBOOKS

The **MRG** is one of the most trusted references for professional airline pilots flying the **Airbus A320** and **Boeing 737**.

Today, more than 85,000 pilots worldwide – including China – rely on the **MRG** as part of their daily operations.

Built on the QRH and FCOM, the **MRG** goes further by providing practical guidance on how to manage malfunctions and how to efficiently continue the flight.

The MRG starts where the QRH ends, bridging the gap between checklists and real-world decision-making.
